## COMMUNITY PARTNERSHIPS

---

**Together, let's share our resources to generate community impact.**

Our ambition is to bring together individuals, partners and communities in a movement that provides widespread access to sustainable employment.

While we have the tools to help people into work, we always need to connect with new partners to provide additional support for our customers.

We aim to partner with like-minded organisations who want to make an impact on the community and a difference in people's lives.

**We need your expertise, so that together we can:**

- Refer participants who need additional support
- Create networking opportunities
- Host workshops and events
- Share our resources to generate community impact
